# Web Design With HTML, CSS, JavaScript And JQuery Set

Synopsis

A two-book set for web designers and front-end developers This two-book set combines the titles HTML & CSS: Designing and Building Web Sites and JavaScript & jQuery: Interactive Front-End Development. Together these two books form an ideal platform for anyone who wants to master HTML and CSS before stepping up to JavaScript and jQuery. HTML & CSS covers structure, text, links, images, tables, forms, useful options, adding style with CSS, fonts, colors, thinking in boxes, styling lists and tables, layouts, grids, and even SEO, Google analytics, ftp, and HTML5. JavaScript & jQuery offers an excellent combined introduction to these two technologies using a clear and simple visual approach using diagrams, infographics, and photographs. A handy two-book set that uniquely combines related technologies Highly visual format and accessible language makes these books highly effective learning tools Perfect for beginning web designers and front-end developers

Book Information

Paperback: 1152 pages

Publisher: Wiley; 1 edition (July 8, 2014)

Language: English

ISBN-10: 1118907442

ISBN-13: 978-1118907443

Product Dimensions: 7.4 x 2.3 x 9.2 inches

Shipping Weight: 5.7 pounds (View shipping rates and policies)

Average Customer Review: 4.7 out of 5 starsÂ Â See all reviewsÂ (273 customer reviews)

Best Sellers Rank: #2,793 in Books (See Top 100 in Books)   #2 inÂ Books > Computers & Technology > Programming > Languages & Tools > CSS   #3 inÂ Books > Textbooks > Computer Science > Programming Languages   #4 inÂ Books > Computers & Technology > Web Development & Design > Web Design

Customer Reviews

This set of books is a winner. They motivate the visual learner to engage and store information into their long term memory.Pros:#1 Content is Great for Beginners, yet even advance developers can learn from these books - if anything, use it as a colorful reference book.#2 This is a MUST HAVE for visual learners... over time, visually geared developers simply get tired of reading black and white content for years... As a result, I usually take online developer courses with videos because it is easier to digest, but sometimes, I really want something tangible that I can hold in my hands and refer back too. Who says picture books are just for kids?!#3 Hardcover - I went ahead and

purchased the hardcover as I heard the horror stories of other customers having complications with their JavaScript & JQuery paperbacks falling apart. I felt awful that my fellow developers went through that and did everything in my power to mitigate that risk through purchasing a hardcover.#4 Text is Very Readable - This might vary per person, but in my opinion, the text is absolutely readable. There is NO eye strain for me, I can make out everything on these pages, and will not need a magnified glass. Now, if you are battling an eye condition, on some pages - you may need a magnified glass, as some of the text in the photos of the browsers are small...but for those with great eyesight, this really shouldn't be a problem for you. Bilberry helps with the eye strain I have gotten in the pass after hours of computer coding. Coders in general should take care of their eyes.#5 Magazine-like, Full Color Pages#6 Both Books Come with Online Support at Their Individual Websites. The websites are great companions to these books.

HTML: Learn HTML In A DAY! - The Ultimate Crash Course to Learning the Basics of HTML In No Time (HTML, HTML Course, HTML Development, HTML Books, HTML for Beginners) Javascript: A Pocket Key to JavaScript for beginners (JavaScript Programming, JavaScript Beginners, JavaScript for web developers, JavaScript Beginners Guide, Java Programming for Beginners) JavaScript: QuickStart Guide - The Simplified Beginner's Guide To JavaScript (JavaScript, JavaScript Programming, JavaScript and Jquery) Web Design with HTML, CSS, JavaScript and jQuery Set Learning PHP, MySQL & JavaScript: With jQuery, CSS & HTML5 (Learning Php, Mysql, Javascript, Css & Html5) HTML, CSS & JavaScript Web Publishing in One Hour a Day, Sams Teach Yourself: Covering HTML5, CSS3, and jQuery Javascript: Beginner to Expert with Javascript Programming (Javascript, Javascript Programming, Javascript for Beginners, Java, Java Programming, Java for Beginners,) Javascript: Learn Javascript In A DAY! - The Ultimate Crash Course to Learning the Basics of the Javascript Programming Language In No Time (Javascript, ...
