Customer Reviews

I have 14 month boy/girl twins and I love reading this book to them at night. When things are crazy, this book gives me a positive and uplifting look on their lives. Highly recommend it to anyone with twins.

Margaret O'Hair's *Twin to Twin* is simply charming and charmingly simple. Make no mistake, to chronicle a baby (in this case two babies) growing years with such few words and convey so much takes an enormous amount of skill on the part of a writer and O'Hair shines in this department. Her style of juxtaposing nouns and verbs to create an active image in a soothing, almost lyrical way seduces and lulls the reader. Illustrator Thierry Courtin accompanies perfectly by enhancing the text's tone with unassuming, comfortable images. How great to have a book that portrays twins in such a wonderfully delightful way! However, a word of warning: if you have twins, it's best to buy two copies, one for each child, for this is one book they will NOT want to share. And I should know. I am a twin.

This is a sweet book with very playful, fun illustrations and simple but catchy wording. I love to read it to my infant boy/girl twins.

This is a wonderful twin story with a sweet rhyme and great illustrations. It is the perfect addition for the twins in your life. I gave it to a three-year-old with newborn twin siblings, and he just can't get enough of it. I recommend it highly.

This is a delightful funny and touching rhyming picture book. Sure to please little ones with its bouncy rhythm and adults with its tender observations. Twin to Twin is sure to become a classic, and not just for twins either!

This is a delightful book. It gives us a humorous peek into what parents of twins are up against. Even early readers will enjoy its short and sweet verse: "Double shirts. Double jeans. Belly buttons in between." And the illustrations are heart-warming! TWIN TO TWIN is a book that I'll keep on my

"Special" shelf to read again and again. I'm looking forward to more children's books from the talented Margaret O'Hair.

I intended to buy this book for a friend expecting twins, but had to get one for myself. The charming illustrations in baby hues grabbed me first. I couldn't stop turning the pages with right-on rhyme that made this mom chuckle. Parents of any little ones will want this by their bedside for nightly storytime. I'm also going to use it in my 1st grade class because I believe in the power of language. This new author not only has a "niche" book for families with twins, but a book all children will want to hear again and again (and will be soon chiming in with the rhymes).
