We all have too many things to do these days. That's why fast food restaurants and other food delivery businesses are booming—they capitalize on many people's lack of time. At least they perceive it to be that way. I'm one of those people. In fact, when I get home, the last thing I want to do is prepare delicious but elaborate meals that can take up too much of my time. Time that I'd rather spend catching up on either my reading, favorite TV sitcoms, video games or sleeping. It used to be that I prayed for a magic pot to throw the food ingredients in and come back for them when cooked. Well, no such luck. However, I learned that you can use the crockpot (a.k.a. slow cooker) and the oven to simply assemble the ingredients and simply leave them to cook. And it has opened a whole new world of deliciously easy to prepare meals even as I catch up on my most favorite things to do at home. You can experience that too! **DOWNLOAD YOUR COPY OF THIS E-BOOK NOW** and learn how to make the following: Ramenoodle Beef Skillet And 7 Other Great Tasting And Easy To Prepare Beef Recipes Creamy Ranch Chops And 7 Other Great Tasting And Easy To Prepare Pork Recipes Russian Apricot Chicken And 7 Other Great Tasting And Easy To Prepare Chicken Recipes Peachy Dump Cobbler Cake And 4 Other Great Tasting And Easy To Prepare Dessert Recipes **DOWNLOAD YOUR COPY OF THIS E-BOOK NOW** and start enjoying more delicious and easy-to-prepare home cooked meals simply by throwing, leaving and eating. It says 29 recipes 17 are incomplete .. 10 recipes have some if not all of the Directions are redacted in Chicken there are 10 recipes that are incompletely redacted that means there are 12 complete recipes in this booklet

I have never cooked a dump dinner, but I have always wanted to try it. I saw this book, the recipes look delicious and I can't wait to try them. Just like everybody else, I don't have a lot of time to cook, but I do enjoy eating well. One of the things that I liked the most about this book is how there are so many meat recipes in here. I always like to have at least 1 meat at the evening meal. The recipes are well written and easy to follow, and I think that this cookbook is one for anybody with a slow cooker.

I have to admit, I never really had a "dump dinner". Well, I bought this book, read over its contents and I have to say I was pretty fascinated with the dump dinners recipes mentioned through out the book. Will be trying in the future. Thanks Brittany!

Like the author describes we are more and more lacking the time to cook (and enjoy life by the way). Things are just what they are. And these dump dinners are easy, tasty and healthy. What more can I ask :)?

My idea of a dump dinner is dump a bunch of stuff in a pot, stir it, and walk away. Some of the meals in this book qualify, some require some more preparation. There are a bunch that apparently need to be frozen,thawed, and then cooked. Not the best collection of dump dinners I've seen, but there are some I'll be trying.

Some of the recipes are great, some not so much. As an amateur at home cook, I have realized that

I prefer recipes that also contain reviews, so I have some idea ahead of time if they are worth making.

So easy and so good! This book is fool proof for anybody looking to prepare quick and delicious meals without stress and lots of time. Highly recommended!

I think there was a mix up. Most of the recipes had to go into a crock pot.....not really dump recipes. I hope the next person has better luck.
