Customer Reviews

I was thrilled when these arrived. They are so lovely I almost wish I had ordered another set to cut out and use while saving the other. The cards are a nice quality stock and have a shiny finish to them. The colors are bright and cheerful. I am beyond pleased.

Great Old fashion Prints of Halloween Cards gone BY!! Excellent color and Condition. Maybe a little to Glossy. But Still WOW!

This book delivers 24 adorable vintage halloween images. I was very pleased with the format and quality of the cards. I highly recommend this item. You won't be disappointed!!!

These cards are printed on heavy stock paper with a shiny finish. I was looking for Halloween postcards and wasn't finding many options and selected these. There are 4 cards per page that you have to tear out of the book. The perforation tears nicely but it leaves a perforated edge on the card which is why I am giving this a 3-star rating.

If you like old fashioned Halloween graphics this book is for you. The format is made to allow you to tear out the cards. If you can bear to part with these gorgeous cards they can be send US mail. Or if you love Halloween as I do you will want to keep these to use as inspiration in costumes and perhaps decorating. Very pretty graphics.

The pictures themselves are really great, and I like that there's a decent amount of room to write on the back. What I don't like is the fact that the postcards are perforated, which I think makes them look kind of cheap.

I purchased these late last year. Sent them out earlier in the month. The reproductions of real postcards sent around the turn of the 20th century were impressive. The bright colors used in these illustrations were fantastic. I even used a few for a montage of my own since I love Halloween! Great Purchase. I did the same with some Christmas cards (postcards) too for 2010. Part of the history was people used to send out these postcards rather than greetings cards as we do in modern day. Going back to this tradition myself! These images are much better than the lovey-dovey crap you get from hallmark cards etc....

I ordered this booklet of postcards for my boyfriend because he loves vinatge halloween postcards and other collectibles. I was surprised when I received this booklet because it has 6 pages with 4 postcards on each and they are perforated for easy removal and are very glossy. My only complaint is that I would want the postcards to be heavier stock i fear of them tearing or crumpling in the mail. I would recommend getting two of these books, one to tear out the cards and mail them to friends and family and the other to keep as a coffee table book. It will surely bring back memories of Halloween and keep your friends talking about old memories. I was very impressed with this buy as

was my boyfriend. :-)I definetly recommend it!
