## Customer Reviews

This book's simple, straightforward title belies its rich resource value. The author shares many interesting, pertinent personal experiences, success stories, and photos to help others to sell jewelry online, from start to finish. She offers solid tips for everything from what types of tools are

helpful, assessing value, pitfalls & cautions, write-ups, mailing practices, and avoiding mistakes that she learned from. Tech savvy and up to date, this is a well-organized, complete guide that will be useful, whether a person is selling one charm bracelet or a whole box of Grandma's jewelry.

I gave this book a 5 star for information and absolutely no rattling on about unrelated issues. This author gave me some insight on a bit of options I can have. I think this is a great read for new sellers. Thank you Micki Suzanne I will look into more research on my vintage jewelry and have a better understanding of my treasure I have. Thank you again.

I was selling vintage jewelry on EBay without a clue as to what I was doing. I'd read some online articles and read Ebay's recommendations, but I was having trouble trying to put it all together. I Love this Book!!! I like the fact the Author shared some of her personal life struggles and her successes. I was able to relate to her experiences and her success with selling vintage jewelry online really gave me hope that I can do this successfully. It helped me to understand the best route to list items, shipping, (I ordered a scale and other items she suggested, I realize I was doing things the really hard way). Very precise and to the point and easy to read. Highly recommend.

Wow! What a great book! I read it in one day, I just couldn't put it down. I love the way she explains things, simple yet to the point not using words that you have to look up! I am just a beginner and this book has helped me soooo much! I just love it! Thanks!

I enjoyed this book. There is a lot of excellent advice on how to get top dollar for your gold, silver and vintage jewelry. The author gives you detailed examples of how to sell your jewelry online, and compares how much you can make selling online versus selling to the gold buyers. She had information on this book that I had not read in other books, such as what items sell best seasonally, how to market your jewelry to get top dollar with thorough descriptions and "background stories", and lots of other advice I had not thought of.
