## Customer Reviews

This is the cutest little book. We've had a baby boom in our group of friends and family over the past couple years and I've been stocking up on copies of this book and writing a little note in each in place of a birthday card. At \$4.97 each, they're less than many greeting cards and kids can keep them and enjoy them over and over again. I just gave one to my niece for her first birthday and she loved looking at it and touching the doggie, the cupcakes, etc. This is a great addition to a kids' birthday gift!

I run a family daycare and I always like to get something for the children when it comes to birthdays, This book is perfect and has alot of beautiful color pictures to it. I plan on ordering lots more a

perfect gift for 1,2, or 3 year olds. Thankyou so much for advertising them I had never,ever seen this birthday one at the stores.

It's a cute book but it's extremely small and the touch and feel parts are also very small. It'd be better if the book were a little bigger.

My son just adored this book we got him for his first birthday! He loves it and pulls it out regularly to have me read or look through on his own. Not very much to read in this book, but you can look at and describe the pictures and point to objects - very well made and durable design.

Got this for a gift for my granddaughter's first birthday. The book is well constructed, but the "Touch and Feel" label is misleading. A baby won't be able to feel much in most of the pages - which are simply embossed in some places. There is only one furry spot on the last page. The book is cute but a disappointment.

Not much going on in this touch and feel book. My one year old generally loves these books but this one doesn't have much to it.

Bought this for my almost one year old! I love it and he's gonna love it too. I really like that the book is so small but chunky! It's really colorful and cute. Overall I'm pleased with this purchase!!

This is a cute birthday themed book with just vocab words and pictures. I wished there wasn't so many photos including the same stuffed animals but liked the few different birthday related items that it featured. My daughter still likes to look at it.
