Dollycasâ€™s Thoughts This is the first book I have read by Lea Wait. I didnâ€™t know about her other series. I was on searching for books to add to my Books Coming Soon page and the cover just pulled me right in. The book arrived and story picked up right where the cover left off. Angie is quite a woman as is her grandmother, Charlotte. To survive having your mother/daughter disappear without a trace is just tragic. Then all these years later her body is found so very close to her home. That is heart wrenching. Angie and Charlotte had moved on with their lives but they had grown apart. Angie ended up in Arizona and didnâ€™t visit very often. When her grandmother call her home her number one mission is to find the person who killed her mother. But her grandmother needed her help with another matter as well. Once she is home the women pick up like they were

never apart and Angie starts to feel at home again in Harbor Haven. There have been some changes, some good, some bad, but Angie learns you can go home again. These are 2 extraordinary characters and I was able to relate to them so easily. The needlepoint thread that pulls the plots together is a strong one. I loved that both men and women were part of the Mainly Needlepointers. Needlepoint can be very relaxing and challenging at the same time. Angie is barely a beginner and her grandmother is the expert and the rest of the group falls everywhere in between. The murder from the past collides with the murder in the present and Angie is like a dog with bone as tries to untwist all the threads to solve both cases. As she does this she reacquaints herself with the people of Harbor Haven. She gets together with her old friends and meets several new residents.
