## Customer Reviews

I have read Jamie's book and seriously it's a very well written book about how to make the best of your time and strategy finding items to buy and sell at any Garage sale. Buy people's leftovers to resell is not easy and can be very frustrating, but Jamie shows you how and what to look for from his many years of experience. If you want to save time finding the right items to sell and also how to properly sell and ship these items, I would recommend this book. You can also use these ideas from this book at Estate Sales, rummage sale, or place where people are trying to sell their products. Thanks for sharing your experience how to make a living buying and selling from Garage Sales.

Garage Sale Goldmine is the best garage sale (re)sourcing book I have found. I have sold almost everything found in his book and his sale and profits prices are not exaggerations: they are dead on. I've bought homerun guides for several hundred dollars, I purchase pricing guides books and subscribe to Terapeak and Profit Bandit and even with all this knowledge I still learned from this book. Once you read this book and recognize the value in the items from this ebook the items will literally jump out at you at a garage sale. Jamie, you wrote an excellent comprehensive book, I have subscribed to your coaching website which I highly recommend and I thank you for really

enlightening me to some items I never would have thought about selling.

Congratulations to Jamie Michael, his book "Garage Sale GOLDMINE" , is a treasure because show us how we can make our best deal through stuff we buy. It's a gold guide where you can make extra money with products you buy and show us all the options we have to sell.

Wow! Did I ever learn a lot about garage sales and selling things on Ebay and . I feel like the author is very passionate about what he does as well as what he writes about. I have tried many of the strategies he instructs and they really really work! This is a must read for anyone looking for ways to learn more about this awesome phenomenon of obtaining great deals locally and then reselling them online (eBay and ). Also good for seasoned veterans just wanting to compare notes. Either way you will not regret the purchase of this guide book to learn and improve your reselling game.

I have read this book and I love the content. It contains valuable information on the best methods to ship and many things I never even considered. Who would have thought that specific hour timing was a big deal for my online sales. I definitely recommend this book to any beginner or veteran treasure hunter. My online sales and my treasure hunting eyes have become more focused and profitable as a result of the information found in this book.

Wow this book has taught me so much!! I can't wait to get out there and go garage sailing now I have a much better idea of what to look for and how much items are worth. I have read a lot of ebooks about reselling and this is by far the best so far very detailed info with lots of pictures!!

Awsome book!!! Thank you so much!!! I would recommend it to anyone wanting to make extra money! Garage Sale Goldmine: The Proven Blueprint Used to Make \$500-\$1000/Week Buying Items at Garage Sales and Reselling Them on and Ebay for Huge Profits

I found the information outdated especially in regards to the fees charged by online sites. Claim is very unrealistic. This is a good beginners book for someone who does not have access to YouTube.
