## Customer Reviews

This book has NO pictures but plenty of spelling and grammar errors. Had I corrected the grammar errors with red circles, the book would at least have some color. For a few examples, refrigerator was referred to as "ref", microwave safe was listed as microwave "save" and dessert was spelled with only one 's', making it 'desert'. There are many more, and I only glanced over a few pages so far. I am disappointed because it is not worth \$10.00. I gave two stars instead of one, because I

didn't try out the recipes. I bought it to give as a gift to a friend, but I will have to "add" to it, because it is looks like it came from a Dollar Store.

I like the selection of recipes for quick and easy mug cakes. I worry within myself about the calories in each mug cake given that the cakes sometimes do have an egg plus oil and other ingredients in each cup. This means that most of the mug cakes are topping over 250 calories. The cookies and cream mug cake for instance has 3 tbsps of oil, 1 egg, oreos, flour, milk and sugar. At my most conservative estimate, that one mug cake is over 600 calories and I did not include the given frosting, but hey, you do only live once.

Good book if you're looking for a few single serve recipes to make in a mug. I wouldn't recommend it if you need to make more than two servings. I tried a few of the recipes and they turned out good. I also like the pictures to go with the recipe.

I love to bake & love trying different recipes for the microwave! This book is wonderful. The recipes are so easy to make & I love the additional information about baking in the microwave. This is one of my favorite mug cake cookbooks! Thank you!

There are not many recipes and they are not written out very well.

Love love love mug cakes and there are some really good ones in here. Had never heard of them before...now wish I hadn't lol. They are so yummy and easy to make when you are alone and have a craving.. what's nice about it that a mug sized dessert is perfect for one and there are leftovers to tempt you. We'll.....kinda. they are so easy to make and the ingredients are calling to me..... help. Enjoy a new and wonderful what to treat yourself. Pros: yummy, yummy, yummy..ok u get it, easy to make wit few ingredients and perfect for anyone who loves to bake but it's only for themself and perhaps their partner. No leftovers to gobble up and give you a guilty conscience and every night you can have a new dessert fresh. Hard to find complaints with anything that has the word dessert in it :)

This book is OK, nothing special. I was only interested in one idea.
