Customer Reviews

This is an excellent book, because you get specifics about creating a podcast that will position you in your niche. I especially found the teachings in chapters 6 and 8 useful when I was creating my own podcast 3 months ago: Chapter 6 teaches a great show structure. Chapter 8 is what she calls "imaging" - which is your branding, including show intro and outro. I can tell you what she teaches works, because I am a very successful graduate of Kris Gilbertson's Podcasting training. My Awakened Author Adventure podcast went to New & Noteworthy in all of iTunes (plus all 3

categories) Do not hesitate to buy this book - and most of all, take action on it. Follow your bliss, Ronda Del Bocco bestselling author, speaker and mentor

This is the second book about pod casting I have read and I just loved it. I like the in-depth information and experience that the author gives us. This is the who, what, where and when and why Pod casting book that explains the concepts of doing it right the first time, the right way. I know that we future pod casters who are starting out need to read this book. It almost should be required to do so. Thanks Kris and see you on the podcast...!

This book is a must read for anyone considering getting into podcasting. Kris provides a step by step guide for getting started in podcasting, building a following, and monetizing your podcasts. Read this book if you want to use the exciting promotional tool that is podcasting.

I was looking for an introduction to podcasting and this fit the bill. It's not incredibly detailed but that's because it's an intro to the author's training but it was worth the money. Just know you are likely to need another book to get the meat.

I produced a podcast as a total novice for a while under someone who was well meaning, but didn't know the first thing about making it successful. It was pretty good, but almost no one ever listened to it! I soon realized that I needed to learn what I was doing wrong, and began researching everything I could find on doing podcasting so I could start over the right way. Since then, I've read several books on the subject and even gone through a full course, so I expected that reading Kris Gilbertson's book to be more of the same. Let me tell you, it isn't! Yeah, that normal info is all in there, but there are several very important points in this book that were never even mentioned in my other materials, or even the course! I am so grateful I took the time to read this book! Written from the perspective of going all the way from, "I'm not quite sure what a podcast is for, how I could ever benefit by doing one, or who would ever listen to it" all the way to, "My podcasting is the major life blood of my business success!" If you want to be ultra-successful quickly, doing your podcast, read this book FIRST!!! Very impressed!!!!

Kris Gilbertson has provided the tips and tools to take you on your way to what might be the next big thing in your business. If you have a message you long to share with the world, I am convinced that podcasting can provide a medium that is easy to move forward and manifest. Kris shows the way in

clear, easy to follow steps that remove any intimidation to getting started.

Kris makes the whole "podcast is the new black" opportunity so much easier and her book was the fire under my backside I needed to get cracking creating my own. She is one of those easy, inspirational and informative experts who makes something which used to seem so complicated so darn simple. Thanks Kris x

I have known Kris for over a decade. She has always been energetic, and passionate about helping people, but now she has done it at a whole new level!!!! This book is an Amazing example of her ability to take something that is Scary to many of us and make it Simple for ALL of us!!!! I am so happy to have found this book! I am launching my podcast and her works is helping me create laser focus to launch my own brand effectively!!!! I am so grateful!!!! Get this Book Today!
