Basic Netting

Synopsis

Basic Netting by Mors KochanskiThis training booklet covers basic netting as practiced by the Grand Banks fishermen. This booklet was brought out as it is not easy to locate information on netting techniques. The knowledge or direction for constructing functional fishing nets is left for another booklet. There is directions for construction a hammock. The time to learn how to net as described in the booklet is about four hours. To build a hammock requires more than a day.

Customer Reviews

This has the clearest instructions for basic netting that I've seen, and I own at least a half dozen books on the subject. Gives nice instructions about the relationship of the tools to one's hand size.

Nice job of showing and explaining the Shuttle and different netting. One thing I suggest though is that you can buy several inexpensive plastic shuttles in case the one you took a lot of time to make in case it breaks, and they do.

Highly recommend.
