Sweet Farts #1 (Sweet Farts Series)

Synopsis

Someone has been farting up a storm at school and everyone thinks Keith Emerson is to blame. Unfortunately for Keith, it has earned him the nickname "S.B.D." (silent but deadly). To make matters worse, Keith's dad is a self proclaimed "Fart Machine" who really stinks it up at home. With the science fair quickly approaching, Keith decides he has had enough. He comes up with a science fair project idea to turn the foul smell of human gas into something sweet smelling. The idea lands him in the principal's office, and in big trouble with his mom. With the help of his little sister Emma, his dad, his crazy grandma, and Benjamin Franklin (great American scientist), Keith will attempt to make the greatest scientific discovery of all time, the cure for the common fart.

Customer Reviews

Sweet FartsWhat kid won't pick up a book that has "Farts" on the cover? I know as a teacher and grandmother I'm always looking for a well written book that even reluctant readers will engage in. Well "Sweet Farts" hooks kids with a very funny story line, lovable characters (I'm especially fond of the grandma), authentic connections to science and social studies (who would have ever thought that Benjamin Franklin really DID write about farts!) and the universal theme of making the best out

of a bad situation. I hope this author continues writing about Keith growing up and solving real problems. C Carro

My third grader finished the latest installment of Diary of a Wimpy Kid and was utterly forlorn. He's a good reader, but somehow he would rather play Madden 10 than pick up a book. I searched and was lead to SweetFarts. It was a fantastic recommendation! The story encompasses the frustration and pressure of being teased at school, the frustration of having to do an assignment that seems onerous and painful AND a fantastic resolution to both of those issues! With the issue of passing gas liberally sprinkled throughout the tale, it kept my somewhat skeptical third grader glued to the pages. The vocabulary is accessible, but challenging and the moral to the story is great. I highly recommend this book to the Diary of a Wimpy Kid 2nd - 4th grade audience.

GREAT KIDS BOOK! I bought this book for my nephew who is 12 and he loved it! I ended up reading some of the chapters with him and we were both cracking up. It was an easy read and really sparked his interest in reading for fun. I would recommend this to anyone looking for a fun book for young readers.

I teach sixth grade and bought this book a couple of weeks ago. It was sitting on the shelf in my personal bookcase. Students were sneaking looks at it and begging me to read it. I read it today and now I HAVE to pass it along to our science teacher. What a great book!!! This book includes science, history, lessons about bullying, and being true to yourself. I am so impressed with this book. I think the author is a teacher who self-published. SUPPORT HIM! He is so talented. I am impressed. Here's hoping he writes more books. I believe kids (and adults) of all ages will laugh and learn something by reading Sweet Farts.

My mom got this book for me and I simply said, "Huh, I bet it's just one of those books that authors write for young kids to make it look funny." But I was badly mistaken. This book is one of the funniest books I have ever read. Best of all it has my favorite trait, addicting. I was so excited when I was reading it I was really sad when it was finished. I wanted other people to have the enjoyable laughs that I had when reading this book. So I decided to come and share with all the people deciding this book. It's a must get! In my opinion I would say for the ages 8-12 but it really just is for good laughs. Any age over 8 will understand and have a good laughing when they're reading. I read this book when I was 11 years old and I cracked up into pieces. This is the perfect book for kids

trying to read a comedy. I personally do not like reading, yet, I read and was immediately captured! I was really glad to have read it. If you don't like reading or if you do like reading this is the perfect book for you. You won't even know you're reading it's like a movie or a great dream! My point is this book is so perfect and funny for reading that it's not a book! Its better like a movie! Or a fairytale! Anyway, you gotta get this book. Don't waist your time thinking, while you could be enjoying and laughing along with this outstanding book. Enjoy!!!

I purchased the book based on a couple other reviews. I read it as soon as it came in to make sure it was going to be a good for my son to read. I liked it and now that my son is reading it he can't put it down. I like the fact that it is educational and silly at the same time!

My boys (8 & 10) had listened to (and loved) the first book in the Sweet Farts series. When we were looking for something new to read as a family at bedtime, we were excited to see the next book. We were not disappointed. As long as you can get past having to say "fart" a couple thousand times, this book is for you. Just the thing to get young boys interested in reading. I don't have girls. I'm sure it would appeal to some as well - it's funny.

My Son entered 4th grade this year and the focus is geared towards additional reading. My son loves to laugh and have fun so I decided to get him something I knew he would have fun reading. He loves this book and we have had a good time laughing and reading and just having fun time as mom and son. He doesn't know my hidden agenda, "for him to see how reading can take you anywhere" he just sees the fun in the character and even commented, "Keith gets me" the main character. For any parents who have a child who isn't so keen on the reading idea, get this book, it will surely have you laughing. This one hit a home run for us!!! Looking forward to #2, and #3.
