# Pokemon Black Version 2 & Pokemon White Version 2 Collector's Edition Guide: The Official Pokemon Strategy Guide

## Synopsis

• The Collector's™ Edition is hardcover and individually numbered, comes with a removable lenticular and four-color end sheets, and contains special Collector's™ Edition-exclusive content: an interview with one of the members of the company behind the design of the games, Junichi Masuda of GAME FREAK, as well as unique art assets.

• A complete walkthrough of the games, including all the new Gyms, Trainers, challenges, and even the post-game surprises!

• Tips and tricks for evolving your Pokémon, so you can get the most from your Pokémon at every level!

• A guide to becoming a star at the Pokémonstar Studios and winning at the Pokémon World Tournament!

• All the info you need to master the Medal Rally and to catch all of the Pokémon to complete your Pokédex!

• Hints and special information to help you find hidden items, with a location index!

• Matchup strategies to help you beat the toughest quartet of Trainers in the game, the Elite Four!

## Customer Reviews

This is the first strategy guide I purchased since Pokemon Gold and Silver (not HeartGold and SoulSilver) and I am really happy with it but also slightly disappointed. As with the games, Nintendo and Gamefreak change features constantly it seems in their walkthrough strategy guides as well. Like I said this is my first guide in a very long time, but when old guide used to tell me what Pokemon every single trainer had on every single path that I would encounter. That's not so with

this guide, they only tell you how many Pokemon the trainer is holding. It's still a great guide but that disappointed me. The rest of the book though is absolutely fantastic. The binding, the colors, the quality, everything is great. The guide itself doesn't start for maybe 50 or 100 pages in, but the intro and information in the beginning of the book is also just perfect. Some of the pages in my opinion seem to be out of order strangely. The page numbers are correct but the order of events gets a little strange at some points. For example they'll tell you to board the Team Plasma ship, but not tell you how to get onto the ship until after you read the whole walkthrough on how to defeat the ship. It's hard to explain but if you go through the book it makes sense. This little issue just leads to skipping ahead and then back a few pages. There's also a lot of information in this book that I would have never known about had I not purchased it. I've been playing Pokemon since I was 4 when Red and Blue came out and there is nothing better than the franchise. I read all the websites and look for all the information but still this book has succeeded in blowing my mind in finding out new information about Pokemon and this game in general that I had not known. All and all, for the price there is no reason to not purchase this. For any true Pokemon fan this is the perfect guide.

Every last bit of the game is covered in this quite gorgeous book (complete with black and white ribbon bookmarks). The thing came in 4 days, standard shipping. VERY pleased!

book came in good condition but this is not pokemon white/black 2 version it is pokemon white/black 1 so wrong product description and i have no use for it but i do recommend them if you want to buy other books that are non video games books

This guide has everything you need to beat the game and explore every part of Unova! Pros- Step-by-step guide to completing the entire game and capturing all the legendaries, even far beyond the elite 4 Maps for every part of the game Tells you how to finish the Unova Pokedex (what routes pokemon are on) Guides on how to beat every Gym leader, Boss, Elite 4 and Champion, even Pokemon World Tournament leaders (weaknesses and more) A nice small poster with Unova and a weakness-resistance chart on the back Breeding guide with egg groups and explains egg moves, etc. How to complete Pokestar studios Amazing artwork of all the characters Explains natures of Pokemon Cons- Some items were left off the maps, so make sure to keep your dowsing machine on just in case. Great guide, and I would recommend this to everyone who hasn't completed the full game yet or has just purchased it.

I've been playing both the Black 2 and White 2 games and I find this book very helpful. Anything I forget to do can be found in this book and I have also found things that I had no idea I could do. Pretty awesome. I am very pleased. It even came in the mail on time and was in pristine condition.

This book is a full walk through of which helped me beat the game most of the way, unfortunately it left out several facts thus meaning that the second book must be obtained. I hope that all people who buy this book enjoy it as much as I did.

As a guide, this book has everything you need! It's well organized and constructed. It's thorough and covers everything in the game. It explains everything you may have any questions on. It lists what pokémon appear where. It shows all hidden items. It explains all abilities. Not to mention it's in a beautiful hardcover and is individually numbered, being a collector's edition and all. You also get an interview with the creator of the series, a poster, and exclusive artwork. This is the quintessential strategy guide especially for Pokémon. Highly highly recommended.

Pokémon Black/White 2 Guide Book. I bought the guide book so I don't miss any of the items and pokémon while playing the game, a surprise hit me in the face while I was reading the walkthrough and there's grottoes in this one and that's a great twist in the game but the only thing the guide book was missing was the pokémon evolution guide, but then I found out that they separated the Pokédex (pokémon evolution guide) from the Guide book unlike previous game guide books. That's the only complaint I have about this guide book.
