## Customer Reviews

Very comprehensive and well structured book that makes it easy to find specific information. Well written and explanations of how various aspects of the iPad mini work is very useful. Illustrations are also as good as I have found in any computer book and I have purchased hundreds over the past 30 years as an IT worker. It is for the iOS 8 version operating system used on the newer iPads.

I like this book

Good book, very helpful. easy to find information. good book very helpful, good book very helpful

Great books clear directions.
