Customer Reviews

What a waste of time and money! It assumes you are an experienced iPhone user, and tells you about the rumored features that the iPhone 7 is expected to have. Tells you what you should do, but

now how to do it. For example it suggests you should "enable erase data" to make it secure, but does not tell you how to do that. There are a great many typos and grammatical errors, as if the author had only a limited command of the English language and did not bother to proofread.

Wouldn't recommend as the "iPhone 7" pictured on the cover is not, indeed, an iPhone 7.....

you messed up man so many typos and ONLY SOME OF THIS IS TRUE NEXT TIME YOU SHOULD NOT LIE TO US iphone 7 is able to pre order not buy!!! any concerns? contact masterclasher1@outlook.com: Also if you want more tips on iphonex7 this thing is so cheap you guys should watch everythingapplepro on youtubeâ | I guess that is it-Goodbye!

It isn't even an iPhone. Just go to an Apple Store to get tips. Don't waste your money.

I have pre-ordered my iPhone 7 already and would be getting it today. Bought the book 2 days ago to get to know all about it before I actually get it in my hands. The cover photo of the book doesn't display iPhone 7, but at least everything about it is covered in the book

This is a good guide overall. It might have some features that are not in this iPhone 7 but majority of them are there and this guide explains them with real easiness. Understood each and every word of it, worth the read.
