I got books like this one because you can learn new things from scratch. Easy recipes and also healthy food will improve your quality of life and have more energy. A good one is the teriyaki beef a lot of taste and also easy to prepare. Full list of ingredients and also preparation. This is a good choice!

I've made a couple of recipes so far and I've never had success with Chinese cooking...until now.

They were delicious, easy and were restaurant quality. I shared a picture of one meal on FB and encouraged friends to pick up this book. I was very impressed and would highly recommend it.

I'm a legit fan of Chinese food, but I'm really tired going to different places just to buy these foods. The good thing is that, I got this cookbook and I already know how to cook Chinese recipes a lot easier.

I've always loved Chinese food. So it's great to find a book that shows how easy it is to cook authentic recipes. One of the things I do like about it is its no-nonsense approach to healthy Chinese cooking. Also, I particularly like the way it blends traditional recipes like Green Bean Stir-Fry with lesser-known dishes such as General Tso's Chicken - which looks like a real Wok challenge to me. I'll think I'll start with a simple dish first like Kung Pao Chicken or Orange Chicken. There's so many to choose from in this book, believe me..Download this fabulous book right now, but I warn you that reading it may make you crave delicious Chinese food!

If you love Chinese food, I am sure you will fall in love with this book. Most of the dishes are nicely formatted, starting with the title at the top of the page, followed by an idea then the active ingredients and instructions. I tried one of the recipes, the Chinese Pepper steak and i went just fine. It was delicious and suit with our taste. I'm looking forward to trying some recipes.

Very excited about this cookbook. All my favorite Chinese foods happen to be in this book. The recipes are precise and easy to follow. We made the Orange Chicken for lunch, was simply delicious. This cookbook is going to save us a small fortune - no more take out, we like to know what is in our food. If your a fan of Chinese take out and want to save \$\$\$, this one is definitely for you, highly recommended from this chef!!!

I really enjoyed this cookbook! It has all of my favorite Chinese recipes and they are delicious! Extremely easy to follow the directions and make. Thank you so much for this book!

First of all, I got so interested with 49- why 49 and not 50 or more? Then I got to realize how Chinese always gets to have interesting figures. But aside from that, as a young mother, I always want to know more (food prep, gardening, etc) for my family. And that's why I am happy to come across this book. There will be no hard time and effort just to make a Chinese recipe perfect

because I already have the steps. It's just so good that we already have things ready for us. The 49 recipes make up a very good choice already. For special occasions, I am excited to have any of it on my table.
