Customer Reviews

Well the content of the book is fine for my course, but it came and the first four chapters or so looked like a three year old got a hold of a pen and scribbled all over it. Maybe some quality control? I can read through most of it but you would think that they could do a better job of checking these things!

I would recommend this book to anyone. Excellent presentation of information and concise chapters. You will not be disappointed in purchasing this textbook. It is cheaper than most textbooks. Check out authors publisher website at [...] for information on the services.

I like how the chapters are laid out in sections and how it reads as a whole. Even though Commercial Law can be a dry topic, this book tries to find interesting anecdotes to keep your interest.

I ordered this textbook for a business law class and read most of the content. I found the text described the concepts well and was perfect for self-driven learning.

Great topics where basic criminal concepts and all the labor and business law are explained. Nice to

have in the household library.

I am a full-time student and purchase many textbooks. Up to this point I have never had a problem returning a textbook. This seller refused to work with me regarding the return of this book. My class was cancelled and I had no need for the textbook. I asked for only a refund in book price, not in the shipping cost. She refused to work with me at all. I strongly recommend shopping elsewhere for your textbooks.

Exactly as it was described and was on time. Used it a lot in my class. Did not have a lot of highlights or bent pages.

Great book, just like new. I am going to hold it for life. definitely would buy again at this store.
