Customer Reviews

Best clear, simple instructions for a beginning eBay seller. Links to buy the proper equipment will save many dollars for your business's budget. Even a few excellent tips for those of us more experienced. Highly recommend if you're starting a new business with eBay!

I have followed PJ for awhile now and he gives out really great information. When he announced his new book, I immediately purchased a copy. I was expecting a book for more advanced sellers but

this is good information for a beginner. It was well written but it needs a good edit to take it up a notch. I like that he included links to videos and other resources. That was a nice touch. It was a quick read at only 32 pages and you can't go wrong for only .99. Overall a good book for an ebay beginner! Real score: 3.5 stars.

As a new seller , I was looking for a book that I could easily apply to increase ebay sales, especially in the area of clothing. This book met my need !! It was a quick and easy read. This book taught me some things, reinforced some things I have been doing right and correct some mistakes I have been making. I would recommend this book to new sellers.

I enjoyed reading every page of this book. It is informative and to the point. I like the shortness of the book making it full of information without all the fluff! Good job!

Thorough and easy to comprehend. Well-written and reliable. As an established seller, I can't think of anything that was left out. Perfect for new ebay sellers!

Excellent guide. Over the moon with how good this book is. Really broken down to help people start selling clothing on eBay. 5 stars

Great information which covers a lot of helpful tips for those starting out or those already established sellers on Ebay.

I got lots of good ideas from this book. I took notes and can't wait to try some of them out.
