What Prohibition Has Done To America

Synopsis

The object of a Constitution like that of the United States is to establish certain fundamentals of government in such a way that they cannot be altered or destroyed by the mere will of a majority of the people, or by the ordinary processes of legislation. The framers of the Constitution saw the necessity of making a distinction between these fundamentals and the ordinary subjects of law-making, and accordingly they, and the people who gave their approval to the Constitution, deliberately arrogated to themselves the power to shackle future majorities in regard to the essentials of the system of government which they brought into being. Stripping away our rights in the name of doing what is "for our own good". Prohibition is EVIL, WRONG & AN INFRINGEMENT OF OUR CONSTITUTIONAL RIGHTS AS AMERICANS.

Reading this book is like reading Oliver Wendell Holmes discuss the history of common law. It's

amazing how our language and writing style has changed in the last eighty years.

I am not for or against drinking but the author of this book comes across as a drunk that is against prohibition. Aside from repeatedly stating that it stripped our rights to drink it really didn't say anything. Glad it was free
