## Customer Reviews

Loved this cookbook! The recipes are intriguing; well explained. They sound delicious, I can't wait to try them! Particularly helpful was the "nutritional facts" accompanying each recipe. I liked the "artsy" reference to the use of color in Thai cooking, mentioned in the introduction. Tom Savage

This book has a lot of authentic delicious-looking recipes. I especially like the addition of the nutrition information. Thai cooking is so popular, yummy and good for you, this book is an easy way to help you try it out.

Yum! Ginger, lemongrass, coconut milk, garlic and peanuts. So many of my favorite flavors in many of these recipes. I made two of the recipes already and they are soooo good. Can't wait to try the others!

This book is the perfect introduction to the deliciousness that Thai food is. As suggested by the author, I have made some Thai Chilli Sauce and stored it, to use for a variety of stir fry and sauted dishes. I've also learnt the skillful use of fish sauce and basil leaves in dishes, without them having jarring flavours. Some of my favourite dishes from this book are the Larb Chicken with lettuce and the Fried Garlic Squid. Also, the nutritional info is super helpful.

I love Thai food and cook it often, but I was not aware of an ingredient called galangal. I like that the author gives options other than rice. The salad recipes look good and have few calories. I can't wait to try the Thai Red Beef and the Thai Meatballs in Spicy Coconut Sauce. I think the recipes are well worth trying.

The book is well written, with a number of excellent dishes. The directions are clear, with the formatting perfect. I loved the conversion tables at the back, as I am not American and needing to search online to figure out how much ingredients to add would have been a pain. Each recipe gives you the number of portions, as well as nutritional information such as calorie count. This book is well worth it. My only complaint is, that there are no pictures of any of the meals in the book. Taken the exceptionally well formatted book, and the number of pictures the author added at the back, of other

books, I personally feel it is a slip not to have included a picture per recipe, and was one of the things I was looking forward to seeing. Hopefully the author will correct this in a future update, then the book would be 5 stars.

I have never cooked any Thai food until recently, and I'm so glad I started! My boyfriend traveled to Thailand last year and told me how amazing Thai food was. He's brought us out to Thai restaurants and I fell in love with the food right away! I decided to bring some Thai dishes into our home and this was the perfect book for me. I loved the background history of Thai food and culture and it really helped me understand the culture a little bit better. Definitely recommend this book and Thai food in general!

This cookbook is all about simple Thai food. You'll discover an exciting new world of Thai flavors and dishes including beloved family recipes, popular street food specialties, and iconic dishes from Thai restaurant menus around the world. With the right ingredients and a few basic tools and techniques, authentic Thai food is easily within reach of home cooks.
